

How TruSteel HD® Works.

TruSteel HD® is produced on the first high-definition, digital printing line for steel in North America. This exciting new process is brought to you by United Steel Supply in conjunction with Steel Dynamics.

True to our reputation for delivering revolutionary products, we've developed a product and process like no other. TruSteel HD® combines the durability of environmentally-friendly electron beam curing technology, with the sustainability of a no-VOC product, at a cost reflective of our superior supply chain efficiency. This proprietary product offers unlimited uses while remaining green for the environment and cost-effective for our customers.

- ① **Cold Rolled Steel Base**
