If our WeatherX siliconized polyester family of coil coatings fail to comply with our limited warranty, we will pay for material reasonably necessary to repaint, repair or replace, at our option, the building part showing failure. However, our liability shall not exceed the purchase price paid for the metal panels. We shall not be liable to any person or entity for any incidental or consequential damages, including lost profits or lost use of material. We shall not be liable to any person or entity for claims of property damage or personal injury. In order for the warranty to be in effect, however, you must notify us in writing of the failure within thirty days of the discovery of such problem and provide documentation we may require. If we repaint, we will use normal painting practices using WeatherX siliconized polyester or other suitable alternatives. This Warranty also applies to the part we repainted, repaired, or replaced, but only for the unexpired portion of the warranty period applicable to the original part.

Our limited warranty does not apply to circumstances which we do not control, including:
